

Secure Women's Facility Hazelton, WV

Completion Date: 12/01/2004

Project Type	New Facility
Project Size	272 Cells, 544 Beds 58 Quad Modules 20 Double Modules 28 Balconies
Contractor:	PJ Dick, Inc.

Summary

Working with project's Design/Build team, Rotondo Weirich produced the 256 cells for the Secure Women's Facility in Hazelton, WV. The facility was the first of its kind, designed specifically for women. RW installed the specialty porcelain fixtures in each cell prior to erecting the prefinished modules on the jobsite.

The project and its Design/Build team, inclusive of Rotondo Weirich, was awarded the 2007 DBIA Award for Public Sector over \$15M.
