

Rotondo Weirich

Press Release

For Immediate Release

July 1, 2009

RW Team Members Achieve LEED® Accreditation

Three members of Rotondo Weirich's team have been certified as Leadership in Energy and Environmental Design Accredited Professionals (LEED AP) by the U.S. Green Building Council (USGBC). **Carolyn Davis**, Chief Estimator, **William Franklin**, Director of Business Development, and **Michael Pagnanelli**, Project Manager, achieved the accreditation as part of their on-going commitment to recognizing the significance and implementing methods of "green" building within the construction industry. The LEED rating system administered by the USGBC is the nationally recognized benchmark for design, construction and operation of high-performance green buildings. LEED gives building owners and operators the tools they need to have an immediate and measurable impact on their buildings' performance through a whole-building approach to sustainability.

Design and Construction professionals worldwide are fulfilling their responsibility to be good stewards of the earth's finite resources. By incorporating efficient materials and design solutions, Rotondo Weirich engages in the industry's effort to contribute highly sustainable design and construction methods to the correctional industry.
