

**FOR IMMEDIATE RELEASE**

**ROTONDO WEIRICH WELCOMES NEW DIRECTOR OF OPERATIONS FOR MANUFACTURING**

*Lederach, PA – September 27,* Rotondo Weirich is pleased to welcome Paul Ripley as the new Director of Operations for Manufacturing.

Mr. Ripley brings over 25 years of experience in precast and plant manufacturing operations to RW. With his focus is on lean manufacturing, optimal plant efficiency and design, and safety, Mr. Ripley's role will be to bring leadership and guidance to the RW field operations team.

"Paul's background will aid to lead our production, finish, quality control, and fabrication divisions to peak performance and team achievement," noted RW's VP of Operations, Mike Artman. "We're happy to have him as an integral part of the leadership team."

Prior to joining RW, Paul operated his own consulting firm and was engaged by RW on an earlier project. His insight, observations, and contributions to the project were not only valuable, but a vision for the future of RW's operations. Before running his own consulting firm, Paul worked with companies such as Rotondo Penn-Cast in Telford, PA and Oldcastle Precast

*About RW*

Rotondo Weirich, Enterprises, Inc. provides precast modular construction solutions for correctional facilities, military, and residential housing. Our unique on-site manufacturing model brings the quality and efficiency of a factory to the local project site, eliminating any geographical limitations. This also allows us to invest in the surrounding communities through the hiring of a project specific labor force, utilization of local subcontractors, services, and supplies. Our mission is to provide our clients with the Best Quality product, for the Best Price, designed and manufactured in the Best Way to meet each projects specific needs. To find out more about RW, visit [www.rotondoweirich.com](http://www.rotondoweirich.com).
