

# Precast Modular Solutions.

Quality.  
Speed.  
Accessibility.

RW's local & regional production model offers unparalleled advantages for a fast track construction solution.

- Fully finished and furnished modules produced concurrently with site work for scheduling advantages measurable in months.
- Structural strength supports roof loads, no additional super structure required.
- Accessible production facility streamlines trade coordination & minimizes on-site work time.
- Local production model allows for production in remote locations, including island & international geographies.

**Best Quality. Best Price. Best Way.**
